Betty Lehman, Disability Advisor, enriches families' understanding of lifetime navigation and how private and public resources impact planning for their lifetimes. Betty provides direction and supports development of the family's *Special Directions©* document. She has been a statewide disability advocate and leader for over thirty years. Betty spearheaded over 14 state statutes in Colorado which resulted in more than \$400 million annually for funding for people with disabilities. Betty shares strategies essential to her own successful planning outcomes for her son Eli.

Special Directions© is a parent perspective planning tool which include philosophies, knowledge, and advice for your child's quality of life for now and the future

One purpose of **Special Directions©** is to provide information any person would need to "step into your shoes", either temporarily or long term, to care for and make decisions with or for the person with disabilities you care for and about, now and in the future.

We cannot assume people we expect to "step up" know exactly what their role is or how to be an effective decision maker for your child in an unforeseen circumstance.

If there's a Plan B event, **Special Directions©** provides critical information about the entire family.

Special Directions© is the road map of your strategies to achieve your goals.

You will learn:

- ▶ Parent Planning Process Overview: Where we are now, where we want to go, how we develop our Road Map to achieve our family's desired goals
- ▶ How to optimize public benefit options: SSI, SSDI and Medicaid Waivers • How to manage income and asset limits
- ▶ How to protect disability eligibilities
- ▶ How to plan for successors who will always have your child's best interests at heart
- ▶ How to build natural supports for now and the future
- ▶ Purposeful planning through **Special Directions©**
